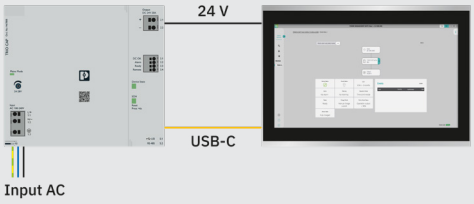
2026 Fall Specials

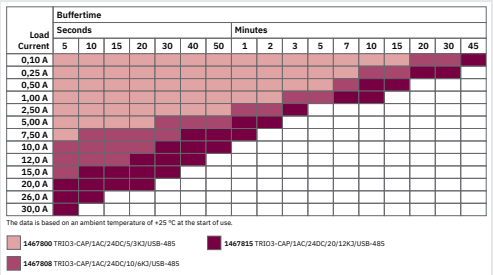
Quarterly Special valid from October 1st – December 31st, 2026

Power Supply and UPS System Combined!
TRIO3-CAP

Power interruptions can put data at risk and processes are interrupted therefore a reliable, maintenance-free power supply is becoming increasingly important.

The new TRIO3 CAP module is the first device on the market that combines a power supply, a DC UPS, and integrated energy storage, including an on-board communication interface, in one package.





Features and Benefits

- Up to 50% less wiring with a space-saving design
- CAP boost 350% for 350ms for high current dynamic loads
- Series wiring for 48 V DC networks
- Comms for parametrization and wired signals for status

Order no.	Description	Details	Promo Price
1467800	TRIO3-CAP/1AC/24DC/5/3KJ/USB-485	Single phase 5 A	$599.00

Unmanaged Switches

Discover the robust and reliable unmanaged switches from Phoenix Contact. Our FL SWITCH 1000 and 1100 series for DIN rails feature versatile connection options and easy operation for automation applications. Simply unpack, connect, and use. Unmanaged switches are fully plug-and-play-capable and do not require configuration. This means that users can operate and install them easily. Status LEDs on the switches provide basic information on the connection statuses and port activity at a glance. This means that an interrupted connection, e.g., due to a faulty cable, can be diagnosed quickly.

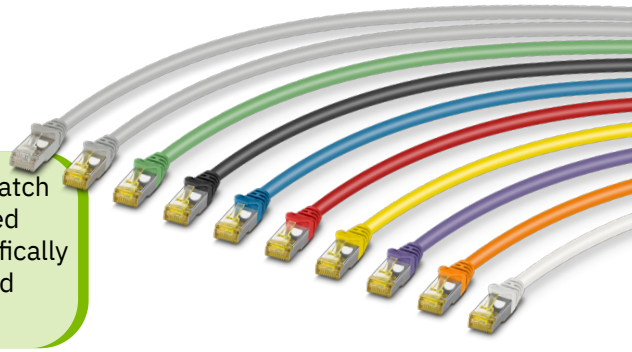
In-cabinet RJ45 Patch Cables



Phoenix Contact RJ45 In-Cabinet Patch Cables deliver reliable, high-speed Ethernet connectivity designed specifically for industrial control cabinets and protected environments

- High-speed Ethernet performance up to 10 Gbps (CAT6A)
- Shielded S/FTP design for dependable data transmission
- Ideal for control cabinets and protected industrial environments
- Available in multiple lengths and colors for easy cable management
- Pre-terminated RJ45 connectors enable quick, hassle-free installation

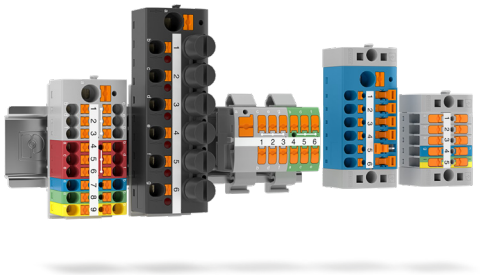
FIX Terminal Blocks

Unpack, connect, and you're done!



The ready-to-use FIX blocks with Push-in connection technology enable quick and easy mounting in confined spaces. The FIX block system consists of distribution blocks, function distribution blocks, and device terminal blocks.

Features and Benefits

- Significant space savings with the extremely small design
- Flexible use with DIN rail and direct mounting adapters or adhesive mounting
- Time-saving conductor connection with tool-free and maintenance-free Push-in
- Distribution and collection blocks with 2, 4, 6, 12, and 18 terminal points
- Available in 11 colours for safe and intuitive installation

6 Pole Force Guided Relays
RIFLINE Series

The highly compact RIFLINE complete relay module switches reliably with six force-guided contacts and Push-in connection technology. Benefit from A2 potential distribution via plug-in bridges on the input side and reliable feedback in your application.

Features and Benefits

- Push-in connection technology
- Overall width of just 20.9 mm
- Relay module with 6-position, force-guided relay
- A2 potential distribution via plug-in bridges on the input side
- Reliable feedback
