

Energy Guiding Chains Program 3100

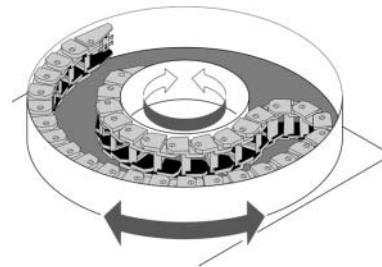

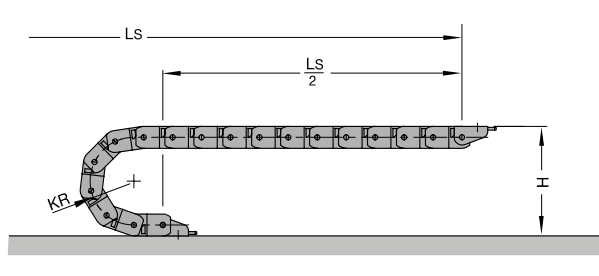

FB3100-0001a-E

Request for: Binding Quote Budget Quote
 Desired Delivery Date _____

Application

Application: _____

Travel Length L_s [m] _____
 Max. Installation Height [mm] _____
 Max. Installation Width [mm] _____
 Center Feed End Feed
 Intermediate off Center Offset [m] _____

Rotation Angle β [°] _____
 Min. Inside \varnothing_i [mm] _____
 Max. Outside \varnothing_a [mm] _____
 Moving Part Inside Outside

Operational Data

Travel Speed v_s [m/min] _____
 Acceleration a [m/s²] _____
 Acceleration across a_T [m/s²] _____

Duty Cycles per Day _____
 Location Inside Outside

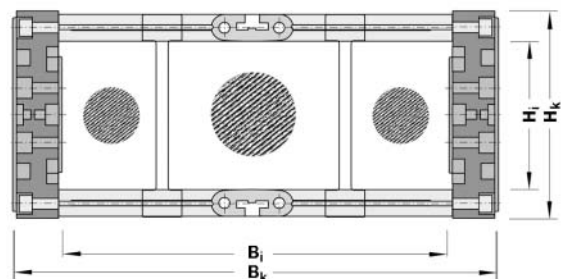

Remarks: _____

Specific Energy Chain Requirements

Required Material
 Plastic
 Plastic for EX Applications

Steel
 Stainless Steel SUS 304
 Stainless Steel SUS 316

Inside Width B_i [mm] _____
 Outside Width B_k [mm] _____
 Inside Height H_i [mm] _____
 Outside Height H_k [mm] _____
 Bending Radius KR [mm] _____

Spare room desired in chain cross-section no yes [mm] _____

Energy Guiding Chains Program 3100

.....

Cables Scope of Supply yes no
Cable Termination Lengths Feed [m] Tow Arm [m]

Environmental Conditions

Ambient Temperature [°C]
 min max
Max. Humidity [%]
Radiation yes no
Aggressive Media no yes (please state)

Type of Pollution
 none Dust Particles
Degree of Pollution
 Light Medium Heavy

Guiding Channel please quote

Required Material Aluminum Stainless Steel
Support Distances regular, every [m] irregular, max. Distance [m]

Requested Additional Services

Pre-assembly (Cables Pre-assembled in Chain) Commissioning
 Final Onsite Assembly Maintenance
